University Emergency Medical Student Association

University of South Florida
4107 USF Cedar Circle, Tampa, FL 33620

Our Mission is to improve the safety of the University of South Florida (USF) campus community through an ongoing 4 pronged approach: 1) a recurring emergency medical responder (EMR) state certification course, 2) provision of direct basic life support and first aid, 3) medical mentoring opportunities for students and 4) automated external defibrillator (AED) and cardio-pulmonary resuscitation (CPR) initiatives.

Our Goal is to raise funding for the equipment essential to expand and support these a well-established campus-based, student run, volunteer EMS programs.

History: The University Emergency Medical Student Association (UEMSA) was established in 2004 as a student organization comprised of emergency medical responders (EMRs), emergency medical technicians (EMTs), and Paramedics. UEMSA has 4 Primary Service Functions:

First Primary Service Function - For more than a decade UEMSA has taught an 8 week EMR course every semester where our students learn medical skills and earn a state EMR certification that allows them to volunteer with our organization and help their fellow students. By educating our community in emergency medicine we improve the safety of our campus. Currently, the funds for our operations are generated by the Emergency Medical Responder course. That revenue provides the support for our equipment and all primary service functions.

Second Primary Service Function - providing medical standby for campus events and for USF organizations that request UEMSA medical services. At these events we provide Basic Life Support (BLS) and first aid for students, faculty and staff, and visitors to USF.

Third Primary Service Function - UEMSA works in conjunction with Student Health Services' Health Support Staff Program to provide certified students the opportunity to experience hands-on clinical care and receive medical mentoring while earning volunteer or internship service hours working with the physicians and nurses at the campus clinic.

Fourth Primary Service Function – UEMSA works with USF's Environmental Health and Safety (EH&S) Department to promote and establish programs which focus on mapping, checking, and inspecting the automatic external defibrillators (AEDs) on campus. UEMSA has trained teams of students to go out under the auspices of EH&S to inventory and evaluate the working status of all the AEDs throughout our Tampa campus. UEMSA is integral to the USF policy of insuring that all faculty, staff and students to have access to life-saving medical equipment.

Your Donations will allow us to replenish our medical supplies, operate an emergency transport vehicle, provide students the opportunity to experience medicine first-hand, and improve the safety of the USF community. Your contribution would directly go towards funding an ambulance, a stretcher, medical supplies, radio communication equipment, and uniforms so that we can expand the EMS system of care on our campus. As an organization we seek to improve the standard for safety at the University of South Florida and we need your help.

What this means for you:

Depending on your level of sponsorship and donation you will receive specific benefits which are listed under the above 6 categories. All benefits would be applicable for one year.

UEMSA is a 501(c)(3) Non-Profit Organization and all of your donations are tax deductible.

- End of Semester Banquet
 - At the end of every semester UEMSA hosts an “End of Semester Banquet” where we give awards for consistent volunteering, contributions, and leadership to our members who showed exemplary dedication and character. The banquet is for our members and sponsors to celebrate a semester’s hard work and accomplishments. We would like to invite your company to celebrate with us and to give us the opportunity to formally and publicly thank you for your contributions to our organization and to the safety of the University of South Florida
- The following benefits acute depending on level of support:
 - You will have 5 seats for your company
 - An opportunity to speak at the banquet
 - Recognition during the banquet
 - Acknowledgment during the opining remarks of the banquet
- Acknowledgment in monthly our e-Newsletter
 - As an organization we write monthly e-Newsletters where we post events, updates, accomplishments, awards, EMS related events, and would acknowledge your donations and would promote your company with an advertisement.
- Website Advertising
 - On our website, we have a page for our sponsors where we recognize your support. Your logo, company name, and a link to your company’s website would be displayed.
- Flyer Advertisement
 - Every month we make flyers to promote our events and post them around USF, as well as hand them out to students. Your logo would be on these flyers.
- Logo on Promotional giveaway items
 - Bull-Market is a weekly event where student organizations host information tables, demonstrations, and give away promotional items to students. Bull-Market is held right outside the Marshall Student Center and is a high traffic event on campus. UEMSA hosts a table every Wednesday where we recruit and promote our organization and give away promotional items related to EMS to promote campus safety and our organization. Some of our giveaway items include, water bottles, sunglasses, stress balls, notepads, bandaid holders, pens, etc. At Bull-Market, we would give away these items that have your logo on them.
- Company logo on Club Shirts
 - Every semester we give away club T-shirts to students, your logo would be put on these shirts and worn by our members.
